MEDIA PROTOCOL

The media protocol has been designed to help achieve an understanding between all media and those representing British Swimming. It aims to create opportunities for the media as well as appreciate the commitments of athletes and staff. This media protocol will be utilised leading up to and during all international competitions.

The protocol recognises that everybody is present at a major competition to do a job – whether they are athletes, coaching staff or the media. Each group experiences its own pressure to deliver, however, consideration of each other's circumstances, roles and responsibilities will help ensure everybody has a successful and productive experience.

ACCESS TO THE NATIONAL PERFORMANCE DIRECTOR AND HEAD COACH DURING COMPETITION

Media requests in relation to the National Performance Director and Head Coach should go through the Press Officer. Those wishing to put a question to the National Performance Director and Head Coach should provide as much notice as possible so the Press Officer can identify a window of opportunity to respond. If the National Performance Director and Head Coach is unable to respond in person, the Press Officer will pass on their views. During the competition the National Performance Director and Head Coach will only give views on the performances of British athletes and the team as a whole. Due to the demands of the job at hand, the National Performance Director and Head Coach's time will be limited so as much prior notice to any requests would be greatly appreciated.

ACCESS TO BRITISH COACHES DURING COMPETITION

After the final event of the day a coach or coaches with relevance to that evening's finals will be available to the media at a location within the venue. This will be co-ordinated through the Press Officer. These coaches will only speak on their athlete's performance. Comments on the overall team performance will only be given by the Head Coach or National Performance Director.

ACCESS TO ATHLETES OR COACHING STAFF DURING COMPETITION

Requests for interviews with athletes or team coaching staff must go through the Press Officer. Whereas media deadlines will always be considered, these interviews will be arranged at a time the athlete or coach can be made available. This is obviously due to the demands of the competition on time. Athletes and team coaches will only comment on their relevant performances. Overall comments will be provided by the Head Coach or National Performance Director via the Press Officer.

Access to athletes and coaches will be limited to the official mixed zone, press conferences or through prior arrangements made via the Press Officer. All athletes will be encouraged to speak to the media, however, due to the need to recover by 'swimming / warming down' immediately after an event, time in the mixed zone will be limited and it is envisaged the media will collect at a good vantage point to be informed as a group rather than as individuals. The swimmers have between three to six minutes from the time they've finished their race to get to the swim down pool. Within this time there is a need to service all areas of the mixed zone – broadcast and print – fairly.

The swim down pool is off limits to all media as indicated by accreditation. No member of the British Swimming squad will be available at swim down.

The Press Officer will try to obtain quotes from athletes if, for whatever reason, access has been limited further. These will hopefully be provided before swim-down or drug testing. If it is not possible to meet these needs then interviews may take place following warm-down. Where a swimmer has an event the next morning, there will be no post swim-down interviews that evening. If an athlete has achieved a notable result their specific coach will also be encouraged to make themselves available to the media at the end of the session. The Press Officer or Team Manager will be present during interviews. The Press Officer and Team Manager will always consider special requests made by the media.

When an athlete has finished their final event of the championships they will be free to consider additional media requests made via the Press Officer. Efforts will be made to meet these as long as they don't impact on the rest of the team.

MEDIA NOT PRESENT AT THE CHAMPIONSHIPS

Not all media will be accredited for international events but the Press Officer and Media team in the UK will try to look after all enquiries via phone or email. The same protocols should be followed. Athletes, staff or the Head Coach should not be contacted directly. Their time is limited and therefore the Press Officer will arrange for information to be forwarded at a convenient moment.

British Swimming encourages the sport to be covered by all media, present or not present. However, all media should understand that priority has to be given to those who are in attendance at the event. Efforts will be made to meet all requests and British Swimming asks that protocol be respected at all times.

MEDIA PROTOCOL

MISCELLANEOUS

All media requests will be considered on their individual merits and decisions made in the best interests of British Swimming. Several requests for separate interviews at the same time will be dealt with in order of deadlines. Media with the tightest deadline will be dealt with first.

If photographers require access to members of the squad for non-action shots away from the competition then all requests should be made through the Press Officer.

For all media interviews, athletes and staff will only wear British Swimming kit supplied for the event by the team sponsor apart from unbranded swimsuits.

All interviews will only involve representatives of the British Swimming team. No persons outside of the team will be allowed to contribute to an interview involving a British Swimming squad member.

No team member or programme-supported athlete is allowed to be part of any media team during camps or competitions, or to disclose or discuss activities during these events.

There will be no access to athletes or coaching staff at the team hotel. It is requested that this privacy be respected.

All media enquiries should be made to the Press Officer. If unavailable the media should approach the Team Manager. The Press Officer and Team Manager must both be aware of all media activity.

Athletes can only talk about their own performance, coaches can only comment on athletes in their own specific group and not the overall team performance, the Head Coach can talk on the overall team and all matters. Support staff are unable to comment on performance.
