

Similar to other meets staged recently, and in accordance with the published event considerations, we have been required by Scottish Government and the local Safety Board to place some limits on entry numbers to fit with the restrictions and parameters in place at the entry closing date. As COVID cases have risen recently in parts of the Glasgow area, the COVID Plan and restrictions that come with this remain important measures in place to keep all involved in the meet safe. This has meant that regrettably we have been unable to accommodate all swimmers who have achieved a consideration time into the meet. Featuring an open meet section focussed on Olympic preparation and consideration, and a junior meet section focussed on a return to racing, with just over 300 athletes accepted into the meet this event will be 40% larger and by far the most inclusive meet run by British Swimming and its partners since our return to the competition arena in Manchester earlier this year.

Due to the varying number of entries into each section of the meet (open and junior) and the differing restrictions, including caps on numbers in place for each section, the following methodologies for managing the overall entry numbers have been applied. While a consistent approach has been used, there has been a need to apply a different 'cut' standard for each section to manage numbers accordingly within each section of the meet.

- For the open section of the meet, all swimmers with an entry time 4% (or more) faster than the open meet consideration time for at least one event have been accepted, and will be able to swim in all the events they entered
- For the junior section of the meet, all swimmers with an entry time 1% (or more) faster than the junior meet consideration time for at least one event have been accepted, and will be able to swim in all the events they entered

In doing the above we have ensured we are maximising the number of places available within each section of the meet, whilst ensuring that athletes that have been accepted remain safe and are able to compete in their full competition schedule.

For those athletes who have been declined, entry and accommodation fees will be refunded in full.
